# UNITY – EXPORT REGISTRY SETTINGS

# UNITY – EXPORT REGISTRY SETTINGS

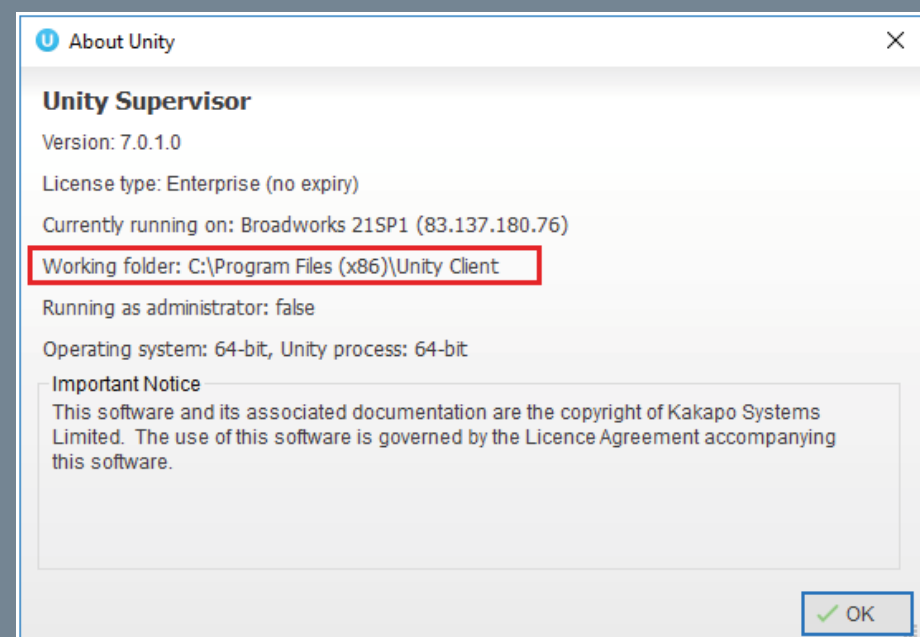

Click: **Help > About Unity**

1

Click: **Working Folder**

2

'Would you like to zip the Log folder?' – Click **No**. This will open the install location in Windows Explorer

3

Double click to open and run '**UnityRegistryExporter**' application

4

unity	11/10/2014 07:02	Icon
UnityRegistryExporter	03/04/2014 16:33	Application
UnityRightsAssignment	03/04/2014 16:33	Application

5

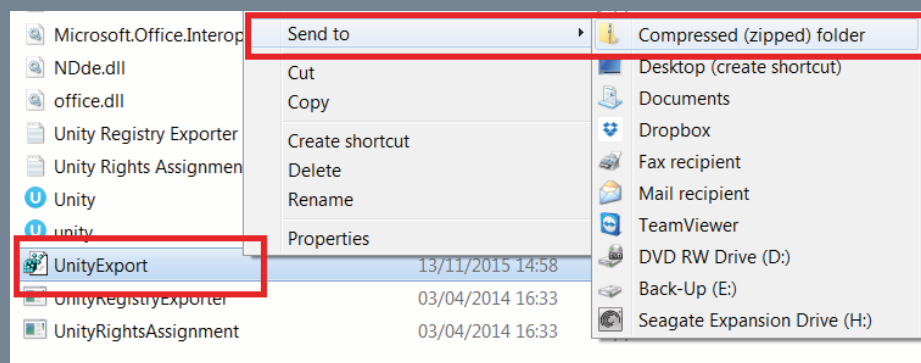

Click **Yes** to run when prompted by Windows

Press **Enter** to close when prompted in the command window

Right click the '**UnityExport**' **Registration Entries** file and send to Zip

6

Email the zip to [ineedhelp@kakaposystems.com](mailto:ineedhelp@kakaposystems.com) or attach it to your support ticket
