SUGAR CRM INTEGRATION

Unity Application Suite | Unity completely unifies all customer contact, including calls, emails and web chats at a user level within Sugar

COLLATE YOUR CONTACTS WITH UNITY AND SUGAR CRM

“PERFORM A CONTACT SEARCH AND UNITY WILL NOT ONLY CHECK ALL DIRECTORIES, BUT IT WILL ALSO DYNAMICALLY SEARCH YOUR SUGAR CONTACTS.”

Unity seamlessly integrates with Sugar to facilitate contact lookup and 'popping' for inbound and outbound calls, searching for CRM contacts within Unity and click to dial both from within Unity and the CRM platform.

Unity CRM Connector will pop the record in Sugar, either automatically or when the user clicks the call notification. Outbound calls can be made from within Sugar direct, or through Unity Contact Search.
