

UNINSTALL UNITY AND REMOVE USERS REGISTRY SETTINGS

UNINSTALL UNITY AND REMOVE USERS REGISTRY SETTINGS

REMOVE THE USERS REGISTRY SETTINGS

Navigate to C:\Program Files (x86)\ Unity Client 'UnityUninstaller.exe' and use Shift/Right Click and choose 'Run as Administrator' (You may already be an administrator and not need to do this).

🛈 unity.ico

- Unity.properties
- UnityClickToDialPreparationTool.exe
- 💼 UnityRegistryExporter.exe
- 🛈 UnityRightsAssignment.exe
- Ů UnityUninstaller.exe
- WinFormHtmlEditor.DLL
- wshom.ocx

You will see the screen here which allows you to remove the user's Unity registry settings. You have the option to uninstall Unity straight after that.

Name	Version	Product Code
Unity Client	8.0.0	{2A293AFD-7F60-4A22-A9
Unity Web Client	1.0.3	{3B9D8A65-FC1B-4933-A
Unity Dashboard	2.1.0007	{7C8A9DC6-8B33-4E64-B

UNINSTALL THE UNITY APPLICATION

Navigate to C:\Program Files (x86)\ Unity Client 'UnityUninstaller.exe' and use Shift/Right Click and choose 'Run as Administrator' (You may already be an administrator and not need to do this). 🛈 unity.ico

- Unity.properties
- UnityClickToDialPreparationTool.exe
- 醇 UnityRegistryExporter.exe
- UnityRightsAssignment.exe
- Ů UnityUninstaller.exe
- WinFormHtmlEditor.DLL
- 🔄 wshom.ocx

You will see the screen here which allows you to choose the Unity product you want to uninstall. As an example, if you choose Unity Client and click 'Uninstall' this will uninstall that Unity product only.

Unity Uninstaller		×	
Name	Version	Product Code	
Unity Client	8.0.0	{2A293AFD-7F60-4A22-A9	
Unity Web Client	1.0.3	{3B9D8A65-FC1B-4933-A	
Unity Dashboard	2.1.0007	{7C8A9DC6-8B33-4E64-B	
Remove Settings Refresh Uninstall Close			

If you are uninstalling Unity you will need to Agree to all the warnings. Click OK to this screen to complete the uninstall.	Unity Client × Interfollowing applications should be closed before continuing the install: Unity Application Suite On Automatically close applications and attempt to restart them after setup is complete. OK Cancel
